Vitality Spa, 200 Jefferson Road- Application for microblading

Christina Oliva, licensed esthetician is applying for a first time microblading establishment and practioner permit. Christina completed an application and provided all the necessary documents for review to do eyebrow microblading. Dr. Jane Williams questioned Ms.Oliva about dermis, needling and safety mechanisms in place to prevent injury. Ms. Oliva explained that microblading is comparable to superficial scratching of the top layer of the skin and does not penetrate into the dermis. Microblading is a semi-permanent color that lasts about 18 months and needs a touch up. Dr. Williams also asked about post care. Ms. Oliva will only be allowed to do eyebrow microblading. Post care is cleaning with soap and water and a light application of Aquaphor. Ms. Oliva's answers provided Dr. Williams with reassurance. General questions were made about insurance and liability. The Director will be doing a pre-opening inspection on the establishment and customer paperwork. The Director is satisfied with the completed application and the Board wishes Ms. Oliva good luck in her new business endeavor.
