Insofar as possible the Contractor, in carrying out his work, must employ such methods or means as will not cause any interruption of or interference with the work of any other Contractor.

8. Addenda and Interpretations

No interpretation of the meaning of the plans, specifications or other prebid documents will be made to any bidder orally. All information given to bidders other than by means of the plans, specifications, or by addenda, as described below, is given informally and shall not be used as the basis of a claim against the Owner.

Every request for such interpretation should be in writing addressed to:

Joseph Lobao
Business & Utility Manager
121 Glen Road
Wilmington, MA 01887

and to be given consideration must be received at least seven (7) days prior to the date fixed for the opening of bids. Failure of any bidder to receive any such addendum or interpretation shall not relieve such bidder from any obligation under his bid as submitted. All addenda so issued shall become part of the Contract Documents.

9. Security for Faithful Performance

Simultaneously with his delivery of the executed Contract, the Contractor shall furnish a surety bond or bonds as security for faithful performance of this contract and for the payment of all persons performing labor and materials under this contract. The surety on such bond or bonds shall be a surety company qualified to do business under the laws of

the Commonwealth and satisfactory to the Owner. The bonds shall remain in force for one year after final acceptance of the work by the Owner, unless the Owner, in writing, releases the Contractor from the obligation sooner.

Attorneys-in-fact who sign Contract bonds must file with each bond a certified and effectively dated copy of their power of attorney.

11. Laws and Regulations

The bidder's attention is directed to the fact that all applicable State laws, municipal ordinances or bylaws, and the rules and regulations of all authorities having jurisdiction over construction of the project shall apply to the contract throughout, and they will be deemed to be included in the Contract the same as though written out in full.

12. Liquidated Damages for Failure to Enter into Contract

The successful bidder, upon his failure or refusal to execute and deliver the Contract and bonds required within 10 days after presentation thereof by the Owner, shall forfeit to the Owner, as liquidated damages for such failure or refusal, the security deposited with his/her bid, but the amount forfeited shall not exceed the difference between his/her bid price and the bid price of the next lowest responsible and eligible bidder. In case of death, disability, bona fide clerical or mechanical error of a substantial nature, or other similar unforeseen circumstances affecting the bidder, his/her bid deposit will be returned.

13. Obligation of Bidder

At the time of the opening of bids, each bidder will be presumed to have inspected the site and to have read and to be thoroughly familiar with the Contract Documents (including all addenda). The failure or omission of any bidder to examine any form, instrument, or document shall in no way relieve any bidder from any obligation in respect of his bid.

All such information is furnished only for the information and convenience of bidders and is not guaranteed.

It is agreed and understood that the Owner does not warrant or guarantee that the subsurface or other conditions, natural phenomena, existing pipes, or other structures encountered during construction will be the same as those indicated in the Contract Documents. It is further agreed and understood that no bidder or Contractor shall use or be entitled to use any of the information made available to him or obtained in any examination made by him in any manner as a basis of or ground for any claim or demand

against the Owner or the Architect/Engineer, arising from or by reason of any variance which may exist between the information made available and the actual subsurface or other structures actually encountered during the construction work, except as may otherwise be expressly provided for in the Contract Documents.

15. Bid Security

Each bid and sub-bid must be accompanied by bid security in the form of a certified check, a bid bond, cash, or a treasurer's or cashier's check, payable to the Owner, in the amount of five (5) percent of the value of the bid. Such security of general bidders will be returned to all except the three lowest responsible and eligible bidders within five days, Saturdays, Sundays, and legal holidays excluded, after the opening of bids, and the remaining securities will be returned promptly after the Owner and the accepted bidder have executed the Contract, or if no notice of intent to award has been presented to the selected contractor within 30 days, Saturdays, Sundays and holidays excluded, after the date of the opening of bids, upon demand of the bidder at any time thereafter.

16. Right to Reject Bid

The Owner reserves the right to waive any informalities in bids and to reject any and all bids, should the Owner deem it to be in the public interest to do so.

THIS AGREEMENT made this _____ day of _____
in the year Two Thousand and _____, between _____, with a
usual place of business at _____, hereinafter
called the CONTRACTOR, and the Town of Wilmington, acting by its Town Manager, with a
usual place of business at 121 Glen Road, Wilmington, MA 01887, hereinafter called the
OWNER.

The CONTRACTOR and the OWNER, for the consideration hereinafter named, agree as follows:

1. Scope of Work

The Contractor shall furnish all labor, materials, equipment and insurance to perform all work required for the project known as the _____
Project, in strict accordance with the Contract Documents and all related Drawings and Specifications. The said Documents, Specifications, Drawings and any GENERAL SUPPLEMENTARY CONDITIONS are incorporated herein by reference and are made a part of this Agreement.

2. Contract Price

The Owner shall pay the Contractor for the performance of this Agreement, subject to additions and deductions provided herein, in current funds, the sum of _____.

3. Commencement and Completion of Work and Liquidated Damages

It is agreed that time is of the essence of this Agreement. The Contractor shall commence and prosecute the work under this Agreement upon execution hereof and shall complete the work on or before _____.

A. Definition of Term: The Term "Substantial completion" shall mean the date certified by the Owner when construction is sufficiently complete, in accordance with the Contract Documents, so the Owner may occupy the project, or designated portion(s) thereof, for the use for which it is intended.

B. Time as Essential Condition: It is understood and agreed that the commencement of and substantial completion of the work are essential conditions of this Agreement. It is further agreed that time is of the essence for each and every portion of the Contract

Documents wherein a definite and certain length of time is fixed for the performance of any act whatsoever; and where under the Contract Documents any additional time is allowed for the completion of any work, the new time fixed by such extension shall be of the essence of this Agreement. It is understood and agreed that the times for the completion of the work are reasonable, taking into consideration the average climatic range and usual industrial conditions prevailing in this locality.

- C. Progress and Completion: Contractor shall commence work promptly upon execution of this Agreement and shall prosecute and complete the work regularly, diligently and uninterruptedly at such a rate of progress as will insure Substantial Completion within the stipulated number of calendar days.
- D. Liquidated Damages: It is expressly agreed between the Contractor and the Owner that the Contractor will be responsible for all damages which may arise due to the Contractor's failure to substantially complete the work within the above specified time. If the Contractor shall neglect, fail or refuse to complete the work within the specified number of days, or any extension thereof authorized by the Owner, Contractor agrees, as a part of the consideration for the execution of this Contract by the Owner, to pay the Owner the amount specified herein, not as a penalty, but as liquidated damages for such breach of contract as hereinafter set forth, for each and every calendar day, excluding Saturdays, Sundays and legal Holidays, that the Contractor shall be in default of Substantial completion after the date specified in the Agreement. Due to the impracticability and extreme difficulty of fixing and ascertaining the actual damages the Owner would in such event sustain, said amount is agreed to be the amount of damages which the Owner would sustain, and said amount shall be retained from time to time by the Owner from current periodic estimates. The amount of liquidated damages shall be \$300.00 per day.

4. Performance of the Work

- A. Direction of the Work: The Contractor shall supervise and direct the Work, using his best skills and attention which shall not be less than such state of skill and attention generally rendered by the contracting profession for projects similar to the Project in scope, difficulty and location. The Contractor shall maintain adequate supervisory personnel at the project site during the performance of the Work. He shall be solely responsible for all construction means, methods, techniques, sequences and procedures and for coordinating all portions of the Work under the Agreement.
- B. Responsibility for the Work: (1) The Contractor shall be responsible to the Owner for the acts and omissions of his employees, Subcontractors and their agents and employees, and other persons performing any of the Work under a contract with the Contractor. This obligation shall also extend to the presence on the Site of suppliers of materials or equipment, their employees, contractors, and agents engaged in the work.

(2) The Contractor shall not be relieved from his obligations to perform the Work in accordance with the Contract Documents either by the activities or duties of the Owner in its administration of the Agreement, or by inspections, tests or approvals required or performed by persons other than the Contractor.

- C. Permits and Fees: Unless otherwise expressly provided, the Contractor shall secure and pay for all permits and fees, licenses and inspections necessary for the proper execution and completion of the Work which are customarily secured after execution of the Agreement and which are legally required at the time the bids are received, and the same shall at all times be the property of the Owner and shall be delivered to the Owner upon completion of the Project.
- D. Notices, Compliance With Laws: (1) The Contractor shall give all notices and comply with all federal, state and local laws, ordinances, rules, regulations and lawful orders of any public authority bearing on the performance of the Work. The Contractor shall provide the Owner with reproductions of all permits, licenses and receipts for any fees paid. The Owner represents that it has disclosed to the Contractor all orders and requirements known to the Owner of any public authority particular to this Agreement.
- (2) If the Contractor observes that any of the Contract Documents are at variance with applicable laws, statutes, codes and regulations in any respect, he shall promptly notify the Owner in writing, and any necessary changes shall be accomplished by appropriate modification.
- (3) If the Contractor performs any Work which he knows or should know is contrary to such laws, ordinances, rules and regulations, and without such notice to the Owner, he shall assume full responsibility therefor and shall bear all costs attributable thereto.
- (4) In the performance of the Work, the Contractor shall comply with all applicable federal, state and local laws and regulations including those relating to workplace and employee safety. The Contractor shall notify the Owner immediately of any conditions at the place of the work which violate said laws and regulations and shall take prompt action to correct and eliminate any such violations.
- E. The superintendent shall represent the Contractor and all communications given to the superintendent shall be as binding as if given to the Contractor. Important communications shall be confirmed in writing. Other communications shall be so confirmed on written request in each case.
- F. Progress Schedule: The Contractor, immediately after being awarded the Contract, shall prepare and submit for the Owner's information an estimated progress schedule for the Work. The progress schedule shall be related to the entire Project to the extent required by the Contract Documents, and shall provide for expeditious and practicable execution of the Work.
- G. Drawings, Specifications and Submittals:
- (1) The Contractor shall maintain at the site for the Owner one record copy of all Drawings, Specifications, Addenda, Change Orders and other Modifications, and "As-Built" Drawings and Specifications in good order and marked currently

to record all changes made during construction, and approved Shop Drawings, Product Data and Samples. These shall be delivered to the Owner upon completion of the Work.

(2) By approving and submitting Shop Drawings, Product Data and Samples, the Contractor represents that he has determined and verified all materials, field measurements, and field construction criteria related thereto, or will do so, and that he has checked and coordinated the information contained within such submittals with the requirements of the Work and of the Contract Documents.

(3) The Contractor shall not be relieved of responsibility for any deviation from the requirements of the Contract Documents by the Owner's approval of Shop Drawings, Product Data or Samples unless the Contractor has specifically informed the Owner in writing of such deviation at the time of submission and the Owner has given written approval to the specific deviation. The Contractor shall not be relieved from responsibility for errors or omissions in the Shop Drawings, Product Data or Samples by the Owner's approval thereof.

(4) The Contractor shall direct specific attention, in writing or on resubmitted Shop Drawings, Product Data or Samples, to revisions other than those requested by the Owner on previous submittals.

(5) No portion of the Work requiring submission of a Shop Drawing, Product Data or Sample shall be commenced until the submittal has been approved by the Owner. All such portions of the Work shall be in accordance with approved submittals.

- H. Protection of the Work and Owner's Property: The Contractor shall at all times safely guard the Owner's property from injury or loss in connection with this Agreement. The bidder will not be compensated for rejected stock, and rejected stock must be disposed of by the contractor at his own expense and at an off-site location.

5. TRANSPORTATION

During transportation, the contractor shall exercise care to prevent injury and drying out of the trees. Upon arrival to the site of work, trees will be inspected for proper shipping procedures. Should the roots be dried, primary branches broken, balls of earth broken or loosened, or areas of bark torn, the Town may reject the injured tree. When a tree has been rejected, the contractor shall at once remove it from the area of work and replace it without any additional expense to the Town.

6. SIZE AND ROOT BALL CONTAINMENT

Shade trees shall be between 1-1/2" and 2" in caliper and at least 9 feet tall. It is expected that most shade trees will be balled and burlapped (B&B), although container shade trees will be accepted as long as they meet size requirements and are at least a #15 container. No bare root trees will be accepted.

Ornamental (flowering) trees shall be at least 1-1/4" in caliper and at least in a #15 container. No bare root trees will be accepted.

The caliper diameter shall be measured at a point six inches (6") above the highest ground level at the tree and will be determined by dividing the measured circumference at that point by 3.1416 or by using a caliper.

7. EXCAVATION

Holes for trees shall be dug at the location indicated by a stake or paint marker set by the Town. The minimum diameter and depth of the hole will depend upon the size of the root ball; therefore each planting excavation should be sized in accordance with ANSI A300 Part 6 standards.

8. USE OF EXISTING TREE MATERIAL

Existing tree material shall be used for backfill except in cases where the soil is deemed unsuitable due to hard clay or rock content. The bidder shall supply his own topsoil (if needed). The topsoil shall be properly leveled and compacted so as to ensure a minimum of settlement of the backfill material but also to allow for proper breathing and drainage of root system. Topsoil furnished shall be free of roots, stones over one (1) inch in diameter, herbicides, subsoils, contaminants and construction debris. Topsoil shall not be frozen or muddy. All surplus topsoil shall be removed by the bidder.

8. TREE PLANTING PROCEDURES

Tree plantings shall be performed by experienced personnel, well versed in accepted horticultural practices, and under the direct supervision of a Massachusetts Certified Arborist (MCA) or International Society of Arboriculture (ISA) Certified Arborist who will inspect the tree prior to and after planting and also inspect the excavated planting hole. Trees shall be placed in a position exactly vertical and at the depth where the base of the root flare is at or slightly above the finished grade. Any tree deemed planted too deeply and/or has a buried root flare will be rejected. Excess soil from the root ball must be removed following installation. Any additional backfill soil shall, at the time of planting, be in a loose, friable condition. At no time shall the topsoil used on the job be stockpiled on turf. Plants shall be set so that they will be the same depth one (1) year later. **The trunk of the tree is not to be used as a lever in positioning or moving the tree in the planting hole.** After a tree is placed in the hole, tie cords, wire baskets, and burlap shall be cut away at LEAST 2/3 of the way down the root ball. Thorough watering shall follow the backfilling operation per ANSI standards. The watering shall completely saturate the backfill. After the backfill settles, as a result of watering, additional backfill shall be placed to match the level of the finished grade. Excess backfill material shall be removed by the contractor. A hardwood chip mulch cover shall be provided for each tree (provided by contractor). A three inch deep circular water saucer of soil shall be constructed around each tree and shall be filled with shredded hard bark mulch or other approved material authorized

by the Town. Any excess soils or debris shall be removed from the planting site immediately upon completion of each planting operation. At the completion of each planting, the tree must be straight, firmly in place, thoroughly watered and mulched. **A tree irrigation bag shall be installed on the tree and filled with water prior to final inspection, at no cost to the Town.** Although the bidder is not required to continually water the tree, attention shall be made to the warrant period as described below, thus ensuring adequate watering is in the best interest of the bidder.

9. CLEANUP

Immediately after the planting of a tree has been completed, the area beneath the tree shall be raked and all debris shall be removed from the area. All streets, driveways, and sidewalks shall be swept clean. Care shall also be taken not to damage other trees, shrubs, or lawns during tree installation operations. Any disturbed areas as determined by the Town shall be repaired by the bidder at the bidder's expense.

10. METHOD OF MEASURING

Trees to be planted shall be measured per inch of diameter. The diameter shall be measured at a point six inches (6") above the highest ground level at the tree and will be determined by dividing the measured circumference at that point by 3.1416 or by using a caliper.

11. NOTIFICATION BY THE TOWN

The Town will provide the bidder with a list containing the addresses and number of trees to be planted for each period.

12. NOTIFICATION BY CONTRACTOR

The Contractor shall notify the Town after the site has cleared DIGSAFE and prior to performing any work.

13. CONTRACT PERIOD

The contract shall be from July 1, 2022 to June 30, 2023.

14. WARRANTY PERIOD

The bidder guarantees the success of all plantings for a period of 1 year from the date of planting. Trees that do not survive will be replaced by the bidder at no expense to the Town. The determination as to whether or not the tree has survived through the warranty period shall be made by the Wilmington Tree Warden, or if not available, other qualified arborist acting on behalf of the Town.

15. BILLING & PAYMENT

The Town will pay all undisputed invoices within 30 days of approval. Bills for services rendered shall itemize each new tree location, date installed and tree species.

16. EXAMINATION OF SITE

Bidders shall inform themselves of all the conditions under which the work is to be performed concerning the site of the work, the obstacles that may be encountered, and all other relevant matters concerning the work to be performed under this contract. The bidder will not be allowed any extra compensation by reason of any such matters of things concerning which the bidder did not inform himself prior to bidding.

17. MEETING BEFORE WORK BEGINS

It is mandatory that the bidder meets with the Town prior to the start of work in order to review the contract specifications, designate the appropriate project contacts, and discuss the manner in which work will be proceeding, among other items.

18. ALTERATIONS, OMISSIONS AND EXTRA WORK

The Town of Wilmington reserves the right to increase or decrease the quantity of any item or portion of the work, or to omit portions of the work as may be deemed necessary.

19. DAMAGE TO PUBLIC OR PRIVATE PROPERTY

Any damage of public or private property caused by the bidder's operations shall be resolved with the property owner within ten (10) days after damage occurs to the satisfaction of the Town. The bidder shall inform the Town of any damage caused by the bidder's operation on the day such damage occurs. Should the damage not be rectified within the time frame agreed upon or to the satisfaction of the Town, the Town reserves the right to repair or replace that which was damaged or assess the bidder such cost as may be reasonable and related to damaged caused by the bidder, and deduct these costs from any payment due the bidder.

20. PERIODIC INSPECTION

The bidder shall notify the office of the Town at the beginning and end of any workday crews plan to work. This notification shall consist of the **starting location and work completed for that day**. The Town will periodically inspect the work and will always be available should any problems arise. The Town can be contacted at (978) 658-4481.

21. BIDDER'S REPRESENTATIVE

Competent supervisory personnel shall be present on the job at all times. The supervisory personnel shall have full authority to act for the bidder, and receive and execute orders from the Town. The bidder shall properly schedule and train all of its personnel. The Town

reserves the right to have the bidder assign a new contact, supervisor, and/or staff, for the Town's account if the current representative(s) are deemed unacceptable.

22. ARBORIST CERTIFICATION

Tree plantings shall be performed by experienced personnel, well versed in accepted horticultural practices, and under the direct supervision of a Massachusetts Certified Arborist (MCA) or International Society of Arboriculture (ISA) Certified Arborist who will inspect the tree prior to and after planting and also inspect the excavated planting hole.

23. SAFETY

The bidder shall insure that all its employees or agents shall abide by all safety rules or regulations set by the Town as well as by general regulations and standards of the industry and in accordance with all applicable federal, state, and local regulations.

24. TRESPASS ON LAND

The bidder shall confine his operations and storage of materials and equipment to the job site public right-of-way or easements. The bidder shall exercise extreme caution so as not to trespass upon property of third parties not involved in the contract. In the event that the bidder is to enter upon the property of third parties in the execution of the work he shall obtain written permission prior to doing so and submit evidence of said written permission to the Town.

25. SUBLETTING CONTRACT

It is mutually understood and agreed that the bidder shall not assign, transfer, convey, sublet, or otherwise dispose of this contract or his right, title, or interest therein, or his power to execute such contract, to any other person, firm, or corporation.

26. EQUIPMENT CONDITION

All equipment will be kept in good, safe operating condition. All equipment will be kept in such a condition so that the gas/oil is not leaking.

27. FUEL/OILING.

Spilling gasoline and oil kills the grass. If any spill should occur the bidder shall immediately commence the appropriate clean up in conformance with any and all applicable regulations. The bidder shall be responsible for all costs associated with such a clean-up and restoration and/or reimbursement for any damages that may occur.

BASIS OF PAYMENT

Payment for this work will be at the contract unit price **per tree**, by prices indicated on the bidder's bid sheet.

PERFORMANCE

It is the intent of the Town Manager not to award a contract for this work under this or any other proposal if the bidder cannot furnish satisfactory evidence that he has the ability and experience to perform this class of work and that he has sufficient equipment and capability to enable him to prosecute the work successfully and to complete it within the time named in the contract. The Town Manager reserves the right to reject this or any other proposal or to award the contract as is deemed to be in the best interest of the Town.

Awarding Authority: Town of Wilmington
Contract Number: **City/Town:** WILMINGTON
Description of Work: This contract consists of furnishing all necessary labor, plants, materials, equipment and services to complete miscellaneous town tree planting
Job Location: various locations

Information about Prevailing Wage Schedules for Awarding Authorities and Contractors

- This wage schedule applies only to the specific project referenced at the top of this page and uniquely identified by the "Wage Request Number" on all pages of this schedule.
 - An Awarding Authority must request an updated wage schedule from the Department of Labor Standards ("DLS") if it has not opened bids or selected a contractor within 90 days of the date of issuance of the wage schedule. For CM AT RISK projects (bid pursuant to G.L. c.149A), the earlier of: (a) the execution date of the GMP Amendment, or (b) the bid for the first construction scope of work must be within 90-days of the wage schedule issuance date.
 - The wage schedule shall be incorporated in any advertisement or call for bids for the project as required by M.G.L. c. 149, § 27. The wage schedule shall be made a part of the contract awarded for the project. The wage schedule must be posted in a conspicuous place at the work site for the life of the project in accordance with M.G.L. c. 149 § 27. The wages listed on the wage schedule must be paid to employees performing construction work on the project whether they are employed by the prime contractor, a filed sub-bidder, or any sub-contractor.
 - All apprentices working on the project are required to be registered with the Massachusetts Department of Labor Standards, Division of Apprentice Standards (DLS/DAS). Apprentice must keep his/her apprentice identification card on his/her person during all work hours on the project. An apprentice registered with DAS may be paid the lower apprentice wage rate at the applicable step as provided on the prevailing wage schedule. **Any apprentice not registered with DLS/DAS regardless of whether or not they are registered with any other federal, state, local, or private agency must be paid the journeyworker's rate for the trade.**
 - The wage rates will remain in effect for the duration of the project, except in the case of multi-year public construction projects. For construction projects lasting longer than one year, awarding authorities must request an updated wage schedule. Awarding authorities are required to request these updates no later than two weeks before the anniversary of the date the contract was executed by the awarding authority and the general contractor. For multi-year CM AT RISK projects, awarding authority must request an annual update no later than two weeks before the anniversary date, determined as the earlier of: (a) the execution date of the GMP Amendment, or (b) the execution date of the first amendment to permit procurement of construction services. Contractors are required to obtain the wage schedules from awarding authorities, and to pay no less than these rates to covered workers. The annual update requirement is not applicable to 27F "rental of equipment" contracts.
 - Every contractor or subcontractor which performs construction work on the project is required to submit weekly payroll reports and a Statement of Compliance directly to the awarding authority by mail or email and keep them on file for three years. Each weekly payroll report must contain: the employee's name, address, occupational classification, hours worked, and wages paid. Do not submit weekly payroll reports to DLS. A sample of a payroll reporting form may be obtained at <http://www.mass.gov/dols/pw>.
 - Contractors with questions about the wage rates or classifications included on the wage schedule have an affirmative obligation to inquire with DLS at (617) 626-6953.
 - Employees not receiving the prevailing wage rate set forth on the wage schedule may report the violation to the Fair Labor Division of the office of the Attorney General at (617) 727-3465.
 - Failure of a contractor or subcontractor to pay the prevailing wage rates listed on the wage schedule to all employees who perform construction work on the project is a violation of the law and subjects the contractor or subcontractor to civil and criminal penalties.
