Following discussion, the Town Manager was directed to include verbiage in the warrant article that the Town be provided regular updates.

At this time Selectman Eaton returned to the meeting room.

BOARD TO CONSIDER AUTHORIZATION TO EXTEND AGREEMENT WITH READING MUNICIPAL LIGHT FOR TEN (10) YEARS

Town Manager Hull reminded the Board that the correspondence was initially sent to them in December advising that the 10 year mark remaining on the agreement is approaching. As part of the agreement, there is a requirement that RMLD place member communities on notice that they have 180 days to indicate whether they are seeking to extend the agreement for another ten years. He advised that the last couple of times the agreement was extended it was done at Town Meeting. Town Counsel Mark Reich has indicated that due to the change in the Municipal Modernization Act, where RMLD is essentially a municipal entity because this is an inter-municipal agreement, it does not require Town Meeting vote and can be done by the Board of Selectmen. Town Manager Hull advised that it is his understanding that the towns of North Reading and Lynnfield have acted on this.

Town Manager Hull stated that based upon a number of factors, the service and the significant requirements to look at options for vendors for electrical power, it is his recommendation authorize the ten year extension.

Chairman Bendel asked if there were any questions, comments or a motion. Selectman Eaton stated that Reading Municipal Light provides a great service at lower cost but would like to include in the discussion that he received, and is sure others received as well, an email regarding a security breach they were victimized by. Selectman Eaton read from the email which indicated that RMLD does not believe customers financial information was compromised as it is housed in a third party system but customer account information such as name, address, email address and historical electrical usage may have been accessed. Selectman Eaton stated that he would prefer tabling this discussion until the Board receives some sort of detailed explanation showing what the scope of the breach was, what the response was, what preventative measures have been put in place for the future. He noted there is already an agreement in place to use RMLD until 2030. Selectman Eaton wants to have the opportunity while the Board has a little bit of time to exercise due diligence since personal information of residents of Town may have been accessed without their permission. He believes the Board should seek to ensure this is a one-time event that RMLD is actively trying to prevent from happening in the future.

A motion was made by Selectman Eaton, seconded by Selectman McCoy and by the affirmative vote of all, it was

VOTED: That the Board of Selectmen table this item until the Board of Selectmen receives a detailed explanation showing what the scope of the breach was, what the response was, what preventative measures have been put in place for the future.

Selectman Caira recognized that with tabled items the Board should not have discussion but asked Town Manager Hull whether Town Counsel has reviewed the agreement. Town Manager Hull stated that he has provided the agreement to Mr. Reich. It is Town Manager Hull's opinion that the agreement needs to be updated.

BOARD TO CONSIDER RESTRICTING TOWN SPONSORED ACTIVITIES ON DATE OF ANNUAL TOWN ELECTION AND ANNUAL TOWN MEETING

Town Manager Hull stated that the Chairman requested that this item be considered regarding scheduling town events on Town Election or Annual Town Meeting dates. Chairman Bendel noted that the Recreation Department scheduled a trip to New York City on May 2. There is an intent to try to encourage residents to attend Town Meeting and engage in voting. The question was raised whether there should be a restriction in terms of having town activities or whether the Town should limit activities that it has jurisdiction over on Town Election or Town Meeting days. Chairman Bendel stated that he and the Town Manager had a lengthy discussion and believed that the Board ought to have the discussion. He stated that the Town, as a community, has spent

a lot of time trying to encourage folks to attend both days but most recently Town Meeting. He stated that the By-Law Study Committee spent a lot of time trying to come up with ways to encourage attendance and opined it is counter-productive for the Town to send people out of state. He stated that, going forward, that alternative dates, other than Town Meeting date, be looked at for out of town trips.

Selectman Caira stated that he was in agreement and was surprised that it was on the agenda because it is his recollection that while chairman he had the discussion with the Town Manager because there were three events scheduled for Town Election. He stated that as a result of his discussion with the Town Manager, it was decided that a letter would go to Department Heads that town events will no longer be held on Town Election or Town Meeting Day. He stated that he is disappointed that there is a conflict and opined that it is not acceptable.

Chairman Bendel stated that there are events planned for this year but it is a good time to plan for the future. There are a lot of things going on any given day, especially in the spring.

Chairman Bendel stated that it is not mandatory for residents to attend Town Meeting but thinks the Town's focus ought to be encouraging residents to attend and have their voice heard. Town Manager Hull asked that the Board confirm whether the groups that have been issued field use permits by the Recreation Department should be advised they will not be permitted on those dates. Chairman Bendel stated that out of state trips are not the same. Selectman Caira stated that is permitted by the Town, not sponsored by the Town.

Selectman O'Mahony stated that it does not take long to vote on Election Day and does not want to see the youth sports organizations rearrange their schedules to block off the day. She stated that she is concerned that on this year's warrant there are three articles to discuss a new senior center and it is her impression that a majority of the people that go on the day trips are seniors.

Selectman Eaton commented that he believes that people have a right to make their decisions. If they sign up to take a trip that happens on Town Election or Town Meeting, that is their choice. Voting is a right, not an obligation. The Board wants to encourage folks but has to understand that there are residents who are going to find a trip to New York City more appealing than voting. Selectman Eaton believes that because the Recreation Department, Elderly Services Department and the Public Library has fantastic programs, he would like to see the departments more prominently displayed at Town Meeting and capitalize on what the Town has to provide.

Selectman O'Mahony stated that in terms of Town Meeting, it would make sense to have the Town Manager issue a directive to the Department Heads that activities should not be scheduled for that day or issuing permits for that day.

Chairman Bendel stated that he is concerned with out of state trips that limit residents. He acknowledged Selectman Eaton's point that one does not have to go to Town Meeting.

Town Manager Hull stated that he will instruct department heads not to schedule events and asked to clarify if it was strictly out of state events, noting that the library has programs scheduled.

Selectman Caira made a motion that there be no Town sponsored events on Town Meeting Day and no out of state trips on Town Election Day. Town Manager Hull advised that there are programs scheduled at the Library on Town Meeting day and Selectman Eaton reviewed the Library's schedule. Selectman Caira stated that if the Board is discussing a restriction for a year from now, the Library can make other accommodations for that one Saturday. Selectman O'Mahony stated that there ways to vote if one cannot physically be there on Election Day.

Chairman Bendel seconded the motion for discussion. Selectman Eaton stated that he would support no out of state trips on the day of Annual Town Meeting, noting there is flexibility for voting in the Town election if they choose to go out of state. He stated that he would not support restrictions on what the Town is offering on Town Election day or any town sponsored events that are taking place on Town Meeting day. Chairman Bendel asked if Selectman Caira wished to amend his motion to just the Town Meeting day and Selectman Caira agreed. Selectman Eaton clarified that he is not opposed to town sponsored activities taking place on Town Meeting day. Chairman Bendel stated that his concern is with out of state travel on Town Meeting day.

A motion was made by Selectman Caira, seconded by Chairman Bendel and by the affirmative vote of four with Selectman Eaton opposed, it was

VOTED: That the Board of Selectmen direct that there will be no town sponsored events, other than the town meeting, on the day Annual Town Meeting effective 2021.

PUBLIC COMMENTS

Frank West, Birchwood Road, asked if there was an update on siting a fire substation in North Wilmington and was assured by the Chairman that when there is an update to provide, he will do so.

Mr. West asked about the trash contractor and was advised by Town Manager Hull that the Town will not be using Russell Disposal effective after June 30. Additional questions were asked regarding potential changes. Chairman Bendel noted that at the recent Massachusetts Municipal Association conference, trash and recycling collection was a major topic of discussion and noted that it is a nationwide issue.

Gary DiPalma, Swain Road, asked whether the Town had decided on another contractor and was advised by Town Manager Hull that the Town had selected Casella, subject to funding being appropriated at the Annual Town Meeting.

Kevin MacDonald, no address given, expressed his opposition to the amendment of the fuel storage license for 135 Andover Street. He stated that although the tanks are aboveground, the lines to the fuel pumps are underground and the property abuts an active quarry. He opined that the fuel tanks should be located at the recycling center on Main Street. He indicated that he believes the department should be moved to the property on Old Main Street and the Fire Department can use the garage as a substation.

Mr. MacDonald expressed his opinion that Olin site has damaged the Town of Wilmington. Mr. MacDonald offered his comments relative to the NDMA found on the site and a childhood cancer study. He believes the Town ought to have a public hearing and bring a lawsuit against the companies. He believes the Town deserves the property, he does not believe New England Transrail deserves it. He believes it should belong to the Town of Wilmington and it should be cleaned up by bringing clean material from the Ledges project. He stated that he would like a member of the Board to request an agenda item to take action against the companies that have polluted the Town.
